Cost of the Strike.

Whether the operators win or lose in the contest being waged with the Western Union telegraph company; whether they return to work at former wages or succeed in obtaining the advance in wages asked, the pecuniary loss which they will sustain will be very heavy, and will take months of hard labor and rigid economy to replace. From the best information attainable, the average price paid the operators was \$1.90 per day. The advance required is fifteen per cent. or in even figures twenty-eight cents per day. The strike has now been in progress seventeen days which at \$1.90 per day It requires one cent to prepay the postage on a copy of the GAZETTE; one cent on the Wool Grower and two conts on the Stock Journal. Col. H. L. Bently, formerly editor of the Texas Wool Grower, but at present manager of the London branch of the Texas Tavestment Company, has become the London correspondent of that live paper, the Fort Worth GAZETTE, and his letters hereafter will be one of the leading and most attractive features of that paper. We congratulate our esteemed North Texas contemporary upon its good fortune in securing such an able correspondent from the old world.

#### San Antonio.

There was a sly dodge practiced here a few days ago by one of our boys, in the marital way. He had, with two or three other young men, been "pay-ing attentions" in a very carnest way to a handsome young lady. All his opponents were shown greater favor at the domicil than he, and the impression was that he s ood no chance at all. But imagine their surprise when the papers published the fact that the young man and the young woman had been granted license to marry. One of his "rivals," as the young ladies call them, started out to ascertain whether is based on the reputed average price of Iowa, visited our city Tuesday and received compromising pledges from the young lady, and on his way met another "rival" who had embarked on governor and the board of managers of the same. In this computation of loss peculiar tenets of his people. His style a similar mission. The two after a most asylum exhibits a want of the lunatic asylum exhibits a want of the lunatic asylum exhibits a want of the money txutter consternation discovered that the license had not only been granted, but foot, earrying his own vallee, weighing that the marriage had actually taken place. married a few days ago to the second daughter of Mr. F. Grods, banker of this city, and departed for Mexico. The couple will eventually make their home at Saltillo, Mexico. Mr. Wolff is a San Antonio boy, and his lovely wife a San Antonio girl, both having been raised in this city. The groom is a talented e vil engineer. When quite a boy he made a topographical survey of the city, which in point of correctness and exactness of profile would do credit to many older and more pretentious persons. He designed and built the magnificent iron bridge that spans our river on Commerce street. After fulfilling his bridge contract, he was employed by Governor Madero of the state of Coahuila, Mexico, to locate and bound and divide into salable shape several millions of acres of the public domain of Coahuila. This is the country now being sold to Americans, and the pr ceeds are to be devoted to the establishment of a state national bank at Coahuila. The marriage of Mr. Wolff was very quiet, though it took place at the elegant residence of the bride's parents on East Commerce street. The 17 delts were very costly, particularly those coming from the bride's two uncles and one from her brother and sisters. These consisted of two cases of silver and a pair of bracelets beset with diamonds, beautiful to behold and very valuable. We hear of some of our young ladles talking over the conduct of the young

men nowadays, and of the probability of organizing a society to reform the ways of young men. The idea is to offer entertainment to young men, after business hours, of a pleasant re-fined nature, with a view to diverting the inclinations of the wayward back to the paths of purity and rectitude. women of the country should take a deep interest in the young men. It is rmed at the First Presbyterian from the army of young men that the young women must call their husbands, and of course they want go al, pure, energetic, honest husbands, who will make them happy and love them well.
